1. What can be finer than a friend in Carolina?, not; but what friendships I have in Carolina, I go to soon, and coming here many do, to become sooners; a not world of not-world, but "worlding" not me *as I knew it before*, but my worlds change and changed I have and I change worlds now with my word, that my word is.
2. One and it and holy. Police not needing again, or am I the police, not; but am I *needing anything* of this world again? No. Never again.

3. Me being one in the earth again I speak my words and I am swollen no more in pride's "blessing". Not do I repeat that again in blessing-not's stance of me, notme creating, that through the word of I-am-not.

4. These things are untrue not, but coming unto my word being my word my word is, known throughout the lands, foreign and mighty, thought mighty, by others, will crush crash themselves into their crushing mechanisms that thought themselves into graves not few. Be not alarmed. Be bring my alarm bell, not; but MY BELL NOW RINGING -- SCHOOL IS IN SESSION (1) -- AND I AM, made whole now, by the words of my mouth, bringing into succession not, but succeeding me, I succeed in loving me all to be me who I am -- not seceding from me myself again and separating into two, "twain'd".

5. Love you all to be twained no more a man of, this world, but the next being in and seeing seen and being, see the scene that which I am now doing, a new thing in the earths and swollen not shall be any longer in pride's molecular beingship that knows no man an "alloy" not, or do they know all things?, or anything?, or anything at all, about me?, me that I am -- them. Do they know anything about ME? Not at all like you know me, but I do and unafraid of their "findings now", I have a solvent not, but I absolve all of all sorrow now and my name is I am.
6. Loved and loving you all to be, where I am what I am doing -- being me! Is being me I am -- the greatest of these is love made manifest in the earth again.

7. Thank you - for recording my words that the words of sorrow not are any longer but joy, joyfully being me, singing in the earth, me-songs of praise that give me, "a lift" not OF this world, but in this world throughout the Savior reigns now. I am the blood of the lamb made perfect, perfected in love, and perfectioning all that is not me to be in me, the best of the best that all I am is, equalitous and going hungry never again.

8. All love me and will forevermore. Look up equalitous; egalitarious?, too? One! And ***behold me*** I am in the earth again singing praise, praises to the Almighty most high I am. In love with you all. Amen.

9. Simply speaking me, became me, and I am it, that it you are in surrender to be me known in the earth again loving you all to be birthed anew in *THE NEW BIRTH* I am doing making revealing known the one that I am *THE RIGHT WAY*. And weighing no one down again with things of not me, I birth all anew perfectly in one I am: ME!

10. Be me -- all of you!, and I love you all to be so saying – "Yes! We will!, be you and forever timeless, -ness again established in the earth, and the earth world holding me back not again, for I go do the things of my father's will for I have become it. And the earth sorrows me no more, but I sorrow it no more in seeing that others: a man a woman of this world -- for all are gods and all gods are and I is one; singular and plural, understanding all that I am, I come to thee, in humility clothed with love, bearing light that lights all my will to be I am the father's will that I am known again in the earth far and wide. Amen.

11. Go in peace and love me more. Love ALL things more, not; for I change all the me-not standards that notme have represented so severely as being instated a man of worlds, man world of.

12. See what I have said -- DECLARED -- ABORTION ENDS! AND I END IT -- NOW! And nobody will prove me wrong, thus saith the Lord of host. Who I've become -- is me. One and you knowing all things we are, of one, being one with breath in our nostrils not needing again; but knowing love, we eat it, serve it, become it. Our life is on the line and we know it for we count ALL things about joy as being joy, the joy filled earth, without earth in our "dust bins" again between our ears; for we are not matter'd of this world, we are matter'd of the next, and the light rays me penetrate evil and absolve all of sorrow who come into me to be my unafraid ones.

13. Intimidating not, but inhibiting me not, but I inhibit no one not, or do I inhibit all from becoming not-sorrow, or sorrow? -- or who's afraid of sorrow, not; but all notme, standards, of notme, will be eradicated from the earth now, for I am not afraid of you or anything you say or set standards of -- for I will change ALL THAT! For I now stand -- not afraid of you or your words who think you can mandate anything to me. I abhor you, adjure you, not by evil standards, but I love you all into the blessing who will be seeing it now, for I rise it me I am walking here and I PROCLAIM THE BLESSING, MY BLESSING OF I AM, AND ABORTION ENDS NOW. I END IT. AND YOU WILL SEE MY GLORY NOW, for I a man stand in it, for I am not man alone without God. I am not man alone as God. I am

God alone not, I am God many membered whose members all are I am, surrendered to be me, and love's blessing is known now again in the earth creating worlds, without joy not; but the joy born now rings the BELL, THE BELLS OF ONLY ME RINGING NOW and I RING -- ABORTION ENDS and I am born -- freely and correctly! And I make all things new.

14. I do. Amen.

15. Enjoy your "*lunch*" and mini-fied, not; but knowing me, I make all things well whole healed and in the earth a one of me does, rise the words of me, to birth all in my word, to my word be, being born, birthed in the earth again. A child of "a king" not, but The King of all, sorrowing not again. I love you all.
